

HDMI 4K Repeaters

Operation Manual

Connection and Installation

Features

It regenerates the incoming HDMI signal by decoding and re-encoding it to a new standard HDMI signal so it can extend the transmission range without degradation.

Extends 3840x2160P up to 20 meter transmission distance(lower resolution signal can be transmitted longer).No power, Plug and play, easy to install.

Specifications:

* Support HDMI 1.4b

- * Support 3D,4Kx2K@30Hz
- * Compliant with HDCP 1.4
- * Operation frequency : up to 340MHz
- * HDMI data rate:3.4G bps(Single link)
- * Input/output resolution:

HD:480i@60Hz 、 576i@50Hz 、 480p@60Hz 、 1080p@50Hz 、
1080p@60Hz、1080p@25Hz、1080p@30Hz、1080p@24Hz、2160p@30Hz

- * Dimensions (W x H x D):28x13x51mm

Note:

Different cable quality may affect the maximum resolution and transmission distance.
